1. The indication of allowable subject matter as set forth in the previous office action is withdrawn in view of the following new grounds of rejection.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1 and 3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 4, and 5 of U.S. Patent No. 6,749,818.

Although the conflicting claims are not identical, they are not patentably distinct from each other.

Each and every element of claims 1 and 3 of the instant application is fully encompassed by the claimed subject matter of claims 1, 4, and 5 of the patent.

4. Claims 1 and 3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 7 of U.S. Patent No. 6,649,057.

Although the conflicting claims are not identical, they are not patentably distinct from each other because each and every element of claims 1 and 3 is fully encompassed by the claimed subject matter of claims 1 and 7 of the patent.

Art Unit: 1744

5. Claims 1 and 3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 6 of U.S. Patent No. 6,656,355.

Although the conflicting claims are not identical, they are not patentably distinct from each other because each and every element of claims 1 and 3 is fully encompassed by the claimed subject matter of claims 1 and 6 of the patent.

Allowable Subject Matter

6. Claims 4, 5, 8, 11, 12, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: With respect to claims 4 and 8, the patents cited *supra* fail to teach or suggest a second dissolving solution supply line. As to claims 5, 11, 12, and 15, the patents also fails to teach or suggest a second chamber divided by a movable partitions and connected to the dissolving solution supply line, solution preparing line, and the solution transporting line.
